Topic: The darkness is thriving – Part 1

Bible Reading: Genesis 1:1-8

Introduction

Darkness is the absence of visible light. Any absence of light, or illumination can be described as darkness. Where there is total or near total absence of light; it signifies darkness. When there is absence or deficiency of light; it is darkness, and that is what is presently rampant in the world.

There are two types of darkness namely: Physical darkness and Spiritual darkness. Just as physical darkness distorts perception and hides dangers; so, spiritual darkness prevents people from seeing the truth, and ultimately separating humans from moral clarity. Which means, darkness is an accurate metaphor for sin; because it obscures reality and thrives in secrecy; due to absence of goodness.

Guidance of God neutralizes darkness: Spiritual darkness can be described as a state of separation from the truth, moral clarity and presence of God. It is due to an inward condition of ignorance, inner confusion and alienation from the divine guidance of God. Inasmuch as moral and cultural decadence is rampant in the world, darkness will continue to flourish and dominate every aspect of human's life throughout the world. People need to be restrained and stop their excessive self-indulgence; in order to overcome the darkness.

Spiritual ignorance leads to darkness: Biblical meaning of darkness primarily symbolizes sin, spiritual ignorance, spiritual death and separation from God. Therefore, those who are living in opposition to God and every soul that is rebelling against their Creator, are living in darkness. Though, many people in the world are in spiritual bondage, and they are living in darkness due to their spiritual ignorance, hidden mysteries, or their overwhelming emotional despair, which always occur during profound grief; or depression; or confusion; or a crisis of soul. Anytime that people

have feelings of hopelessness, or have feelings that there is no clear path forward; or having a feeling that their problems cannot be solved at the right time; such people are prone to be overshadowed by the darkness.

Darkness symbolizes chaos: Darkness symbolizes chaos and uncertainty. Nowadays, we have war, instability, famine and pandemic across the world; because people are living in spiritual darkness. The situation is so bad to the extent that even the leaders of the Nations of the world are also in spiritual bondage of the darkness. It is for this reason that people are troubling one another, and love is lost among humans including the so-called Christians.

Today, the spiritually blind people are leading others that are also divinely blind, and whenever the blind is leading other blind people, all of them will stumble, fall and end up regretting their deeds, or acts. Inasmuch as spiritual blindness continues to thrive among mankind, due to the fact that they believe in themselves instead of God. It is a common occurrence across the globe for Nations to rely on their economic power, military power, intelligence, technological power and prowess; instead of God. This act is what is giving rise to calamity throughout the world; because it is the darkness that is controlling or directing the affairs and the acts of the Nations.
